African D'Jembe drums

Rhythms of the continent

M-M010: Senegal

M-M010:Ghana

(Oversized shipping costs are approx. \$45.00 per full-sized drum.)

Quality Assurance

D'Jembe drums are made in the bush areas of Africa. However, every drum is checked for:

- *Head ring and string tightness*
- *Level head with no holes*
- *No imperfections in wood base and bowl*
- *Fist-size sound openings between base and bowl*

**Each drum is uniquely made,
so no drum is totally perfect.**

The Original and Authentic D'Jembe

We have these drums in all sizes and they are easy to play. D'Jembe (pronounced Jem'Bay) drums are hand-carved and hand-strung for quality. They offer the authentic, African experience, so check online for the latest stock from Ghana and Senegal.

Why Oils?

You get more for your money. A little bit of oil goes a long way. The perfume oils normally last much longer than perfumes.

- The pure oils give you a lot more fragrance for a lot less money.**
- You can mix different oils together to get the perfect scent just for you — your own signature scent.**

How oils save you money

Most perfumes and colognes are normally just 15% oil and contain a lot of alcohol and other chemicals. With these oils, you get only the pure and uncut oil.

- Scent lasts much longer than perfumes**
- Beauty budget goes a long way**
- Oils moisturize your skin**

What is the difference between fragrance oil and essential oil?

Essential Oils

- Made from plants and other natural products
- Steam distilled to produce the oil
- Completely natural
- More expensive
- Not available for most fragrances
- Designer-named fragrance oils are never essential oils

Fragrance Oils

- Fragrance oils are used to make perfumes, cosmetics, and flavorings.
- They can be made to almost any fragrance, not just nature scents,
- Cost is normally much lower than the essential oils.
- More options, and a lot more fragrance for your money.

What is the difference between oils that you burn and oils that you wear?

There is no difference in the oil itself. Some oils are popular for burning, because people like that fragrance in their home - you can think of cherry or frankincense. Other oils are most popular as perfumes. A person may not want to smell like cherry, and may not want their house to smell like Chanel #5. But a person can wear cherry and can burn Chanel #5 if they want to.

Cutting Oils Help your oils last longer

Normally our customers sell the oils uncut. There are times when oils need to be cut, however. DPG is normally mixed with oils when they are being used in an oil burner or in making incense. Grapeseed oil is the lowest priced carrier oil used to mix with oils that are being used as body oils.
